READINESS REPORTS AND REMEDIATION

ROOT-CAUSE AUDIT

North Harbor Outdoor Supply Co.

The Shopify catalog and storefront list the Trail Pack at 48.00 USD, while the selected sales feed lists 42.00 USD. The supplied evidence confirms the feed mapping as the first observed disagreement.

RECOMMENDED NEXT STEP

Review a Product Data Fix Sprint scope

The confirmed feed mapping issue fits a focused correction and validation scope.

ROOT-CAUSE SUMMARY

Where the supplied evidence first stops matching

The Shopify catalog and storefront list the Trail Pack at 48.00 USD, while the selected sales feed lists 42.00 USD. The supplied evidence confirms the feed mapping as the first observed disagreement.

Earliest controllable layer: Target feed or market

Scope and evidence window

SOURCE CATALOG	Shopify product export
STOREFRONT	https://north-harbor.sample-report.example/products/trail-pack
TARGET FEED OR MARKET	Selected sales feed - United States / USD
SUBMITTED ROWS	250
EVIDENCE WINDOW	August 5, 2026 - August 7, 2026
INPUTS ACCEPTED COMPLETE	Aug 5, 2026, 12:00 PM UTC
DELIVERY TARGET	Aug 10, 2026, 12:00 PM UTC

Evidence chain

Each discrepancy below keeps supplied values, public observations, and untested locations distinct. A missing or untested value is not presented as a confirmed defect.

DISCREPANCY 1 - PRICE-001

Price disagreement

LAYER	REFERENCE	OBSERVED VALUE	BASIS AND TIME
Source catalog	products.csv row 18 / SKU TRAIL-FOREST-20	48.00 USD	Merchant supplied Aug 5, 2026, 12:00 PM UTC
Storefront	https://north-harbor.sample-report.example/products/trail-pack	48.00 USD	Publicly observed Aug 6, 2026, 12:00 PM UTC
Target feed or market	selected-feed.xml item TRAIL-FOREST-20	42.00 USD	Merchant supplied Aug 7, 2026, 12:00 PM UTC

Earliest confirmed layer

Target feed or market

Affected scope

One sampled Trail Pack option in the United States feed (limited sample)

Why this can hurt the business

A shopper may arrive expecting the lower feed price and hesitate or leave when the store asks for more. AI search tools and shopping agents may also carry the conflicting offer forward or hold it for review.

Recommended correction

Correct the selected feed price mapping, regenerate a limited sample, and compare the same product option across all three locations before publishing the full export.

Responsible owner

Commerce operations

How to validate

- Confirm the Shopify catalog, storefront, and regenerated feed show 48.00 USD for the same product option.

Limitations and unresolved questions

- The audit did not test products or markets outside the submitted evidence.

DECISION AND HANDOFF

Review a Product Data Fix Sprint scope

The confirmed feed mapping issue fits a focused correction and validation scope.

Issue family for scope review: Selected-feed price mapping. This is a proposal for review, not authorization to edit or publish.

Known limitations

- The review covers one source export, one storefront, and one selected target feed.
- No ranking, platform approval, activation, or sales outcome was tested.

Delivery notes

- A 30-minute readout is included to walk the team through the evidence and recommended correction.
- Raw uploads are scheduled for deletion on September 6, 2026. The delivered report and audit record remain private.
- Your $495 audit credit applies only when an eligible Fix Sprint scope is approved by September 3, 2026. A Fix Sprint remains a separate scope and approval.
- This audit diagnoses and recommends. It does not edit source data, publish a feed, change a storefront, or guarantee platform approval, activation, ranking, visibility, or sales.

Autonomous Path compared the supplied and publicly observed evidence within the confirmed scope. The report does not extend beyond the listed source, storefront, target, rows, discrepancies, and evidence window.
